

Levels of Citizenship/Community: Student Group Placemats

Directions: There are 12 pictures at your desk. Match each picture together with another that best matches to make 6 total pairs. Then, arrange the pairs from 1 to 6 and place them on what you think is the correct rung of the ladder below. 1 being the smallest level of community and 6 being the largest community. In your groups, come up with a name for each level of community. The first rung is filled in for you.
